Indy Firm Developing "Indiana Green Pages"

Emerald Healthy Environments

Emerald Healthy Environments LLC of Indianapolis is developing the Indiana Green Pages online and printed directories. Indiana Green Pages is billed as the first complimentary directory of "green" for profit and not-for-profit businesses in the state. The goal is to help Hoosiers find products and services that are health conscious, socially responsible and safe for the environment. The Indiana Green Pages printed directory and consumer website will be launched in December.

To submit information about your green business and receive a free listing in the printed and online directory, sign up at www.myhomegreenpages.com

Press Release

(INDIANAPOLIS, July 30th, 2008)

Emerald Healthy Environments, LLC the local green business - manufacturer of formaldehyde free storage solutions has undertaken a green community effort – development of Indiana Green Pages online and printed directory.

Indiana Green Pages is the first complimentary directory of "green" for profit and not for profit businesses in the state of Indiana.

The goal of Indiana Green Pages is to connect people of Indiana with Indiana green businesses and organizations to help consumers and businesses find products and services that are health conscious, socially responsible and safe for the environment.

The Indiana Green Pages printed directory and consumer website will be launched in December of 2008. **To submit information about your green business and receive a free listing in the printed and online directory, sign up at www.myhomegreenpages.com or call 1-888-851-9048 or 317-501-0418.**
